Intro

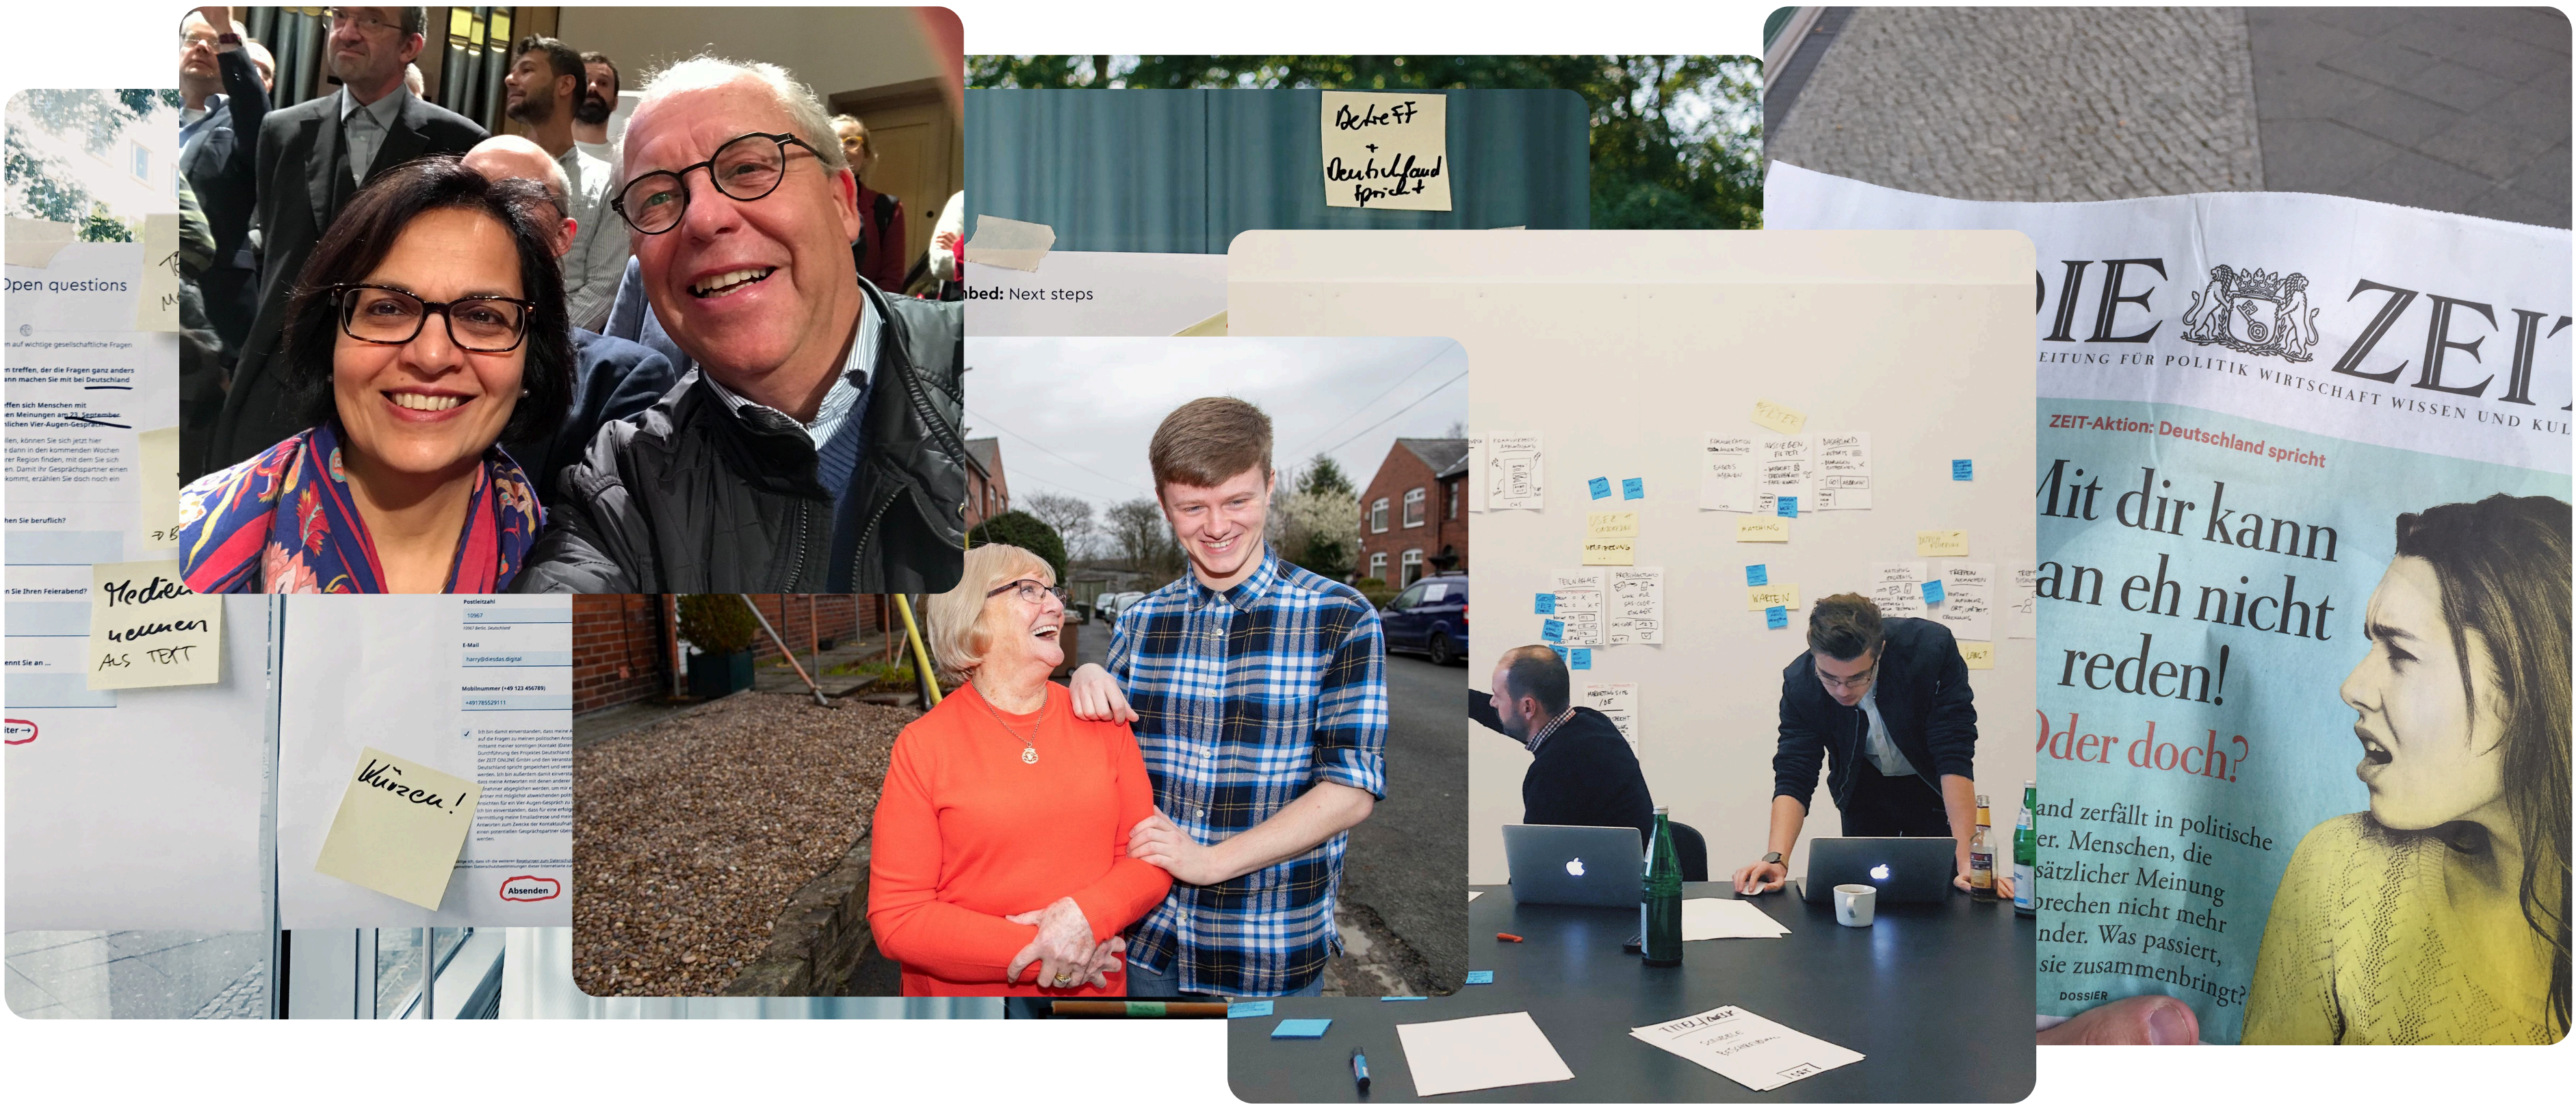

A Berlin-based ambitious Frontend Developer, UI & Product Designer with 5+ years of experience specializing in design systems for branding projects.

Working as a Web Designer with scrum at communication and design agencies, startups and in multidisciplinary teams, I gained the experience in delievering coherent user experience on various touch-points.

Driven by a commitment to constant growth and lifelong learning, I am currently navigating a transition within the tech industry. This shift represents an exciting opportunity for me to expand my skillset as an experienced Web Designer with Web Development technical expertise.

My goal is to bring a unique blend of Web Design know-how and Frontend Development prowess to create compelling digital experiences.
